Continuation of 5. does NOT place the application in condition for allowance because: The applicant's Response and Amendment after Final Rejection has been carefully considered. However, the response is not pursuasive. The cited prior art, Behrens US 6,343,340) reads on the claims set forth in the present application.

Continuation of 10. Other: Behrens discloses a marking which is simultaneously readable to both a human and a machine. The human readable aspect is represented in ASCII code format such as alphanumeric characters. The machine-readable aspect is represented in binary 1's and 0's which is scanned column-by-column by a scanner. Accordingly, Behens reference still reads on the amended claims and the rejections are maintained (See paper #5)..
